## Interests

- family As a father of two, much of my free time is devoted to my family. If it isn't time spent on the playground with my sons or at home playing cards with my partner, I might be cleaning the floor around the baby chairs or washing their clothes.
- sports I love all kinds of sports. Mostly I ride bikes either recreationally or as a way to commute to work or on other errands. I like to go on hikes and I try camping at least once a year. I play football regularly and sometime I've lifted weights at a gym. In the summer of 2012 my friend and I went on a 2 month biking tour through Europe, visiting six countries and bicycling over 1600 km.
- chess For many years I studied chess and I achieved a peak ELO rating of 2062. In 2007 I became national champion U20 and in 2009 I played in the World Youth Chess Championship held in Antalya, Turkey. Twice I became Nordic champion and three times national champion with my junior college chess team. I have taught chess in various elementary schools and organized my own summer chess workshops.
- math I am deeply intrigued by the concept of infinity and I take joy in intuitive proofs by contradiction. During junior college I participated in multiple mathematics competitions and twice I was selected to compete with the national team in Baltic Way.
- tech Previous hands-on hobby projects included autonomous Raspberry Pis hosting websites and recording timelapses. Set up [blog.bjk.is](http://blog.bjk.is) to document some of it. I manage my own VPS hosting websites and experimenting with various webservices.
